Abstract: A ten-step methodology for research on integrated agriculture-aquaculture farming systems is described. Particular attention is given to the interactions between the agriculture and aquaculture components. References to appropriate "standard" agriculture and aquaculture research methods are made.

This abstract was excerpted from the original paper, which was published as pages 89-98 in Techniques for Modern Aquaculture, Proceedings of an Aquacultural Engineering Conference, 21-23 June 1993, Spokane, Washington, Jaw-Kai Wang (Editor). American Society of Agricultural Engineers, St. Joseph, Michigan.

CRSP RESEARCH REPORTS are published as occasional papers by the Program Management Office, Pond Dynamics/Aquaculture Collaborative Research Support Program, Office of International Research and Development, Oregon State University, Snell Hall 400, Corvallis, Oregon 97331-1641 USA. The Pond Dynamics/Aquaculture CRSP is supported by the U.S. Agency for International Development under CRSP Grant No.: DAN-4023-G-00-0031-00.
